FULL-STACK WEB DEVELOPMENT

I'm interested in collaborating on:

- **web applications** for external (customer-facing) and internal use
- backend implementations, especially **cloud**-based solutions
- **modelizing** processes and records in strongly typed languages
- performance oriented, native **cross-plattform** applications
- general **programming** tasks

PAST PROJECTS

Disaggregating Origin-Destination Matrices 📅 2021

Implementations for my Bachelor Thesis

Given millions of conducted trips, construct individual day plans resulting in equal traffic flow. The solution is based on graph search.

| Rust | Java | Big Data | Performance | PostgreSQL |

Boardgame Artificial Intelligence 📅 2020

Programing Lab

Teams develop AIs that are continuously matched against another.

| Java | Heuristics | Performance | Competitiveness |

Blockchain for Education 📅 2019

Fraunhofer FIT Cooperation Systems

Desktop client checking and displaying (sandboxing) file contents.

| TS | JS | React | Electron | SCSS | Cross-Platform |

Microcontroller Operating System 📅 2019

Programming Lab

From electronic circuits to a light OS with scheduling and I/O.

| C | Atmel Studio | Low-Level |

Open Mobility Platform 📅 2018

Fraunhofer FIT Mobility Group

Front-end of a live-cooperation platform for specifying protocols.

🔗 github.com/FIT-Mobility/interaction-protocol-suite

| TS | XSD / XML | React | Redux | MUI | CSS-in-JS |

TECHNOLOGIES

JS TypeScript (JavaScript)
Front- and Backend

Modern ECMAScript features (transpiled)

| Deno / Node | i18next | GraphQL |

React
Modularized JSX Front-End

Function components with hooks

| Sass / CSS | Gatsby | Electron |

Rust
Performant and Safe Implementation

Alternatively in | Java | or | C / C++ |

LANGUAGES

German
First language

English
Day-to-day in work and leisure

French – DALF C1 (2014)
Grew up billingual

EDUCATION

Computer Science (B.Sc.)
RWTH Aachen University

📅 September 2021   📍 Aachen

Thesis title: "Disaggregating Origin-Destination Matrices using Time-Progressive Graphs for Agent-Based Traffic Simulations"

RWTH Aachen is one of Germany's "Universities of Excellence".

Abitur (High School Diploma)
Max-Planck-Gymnasium

📅 June 2015   📍 Saarlouis

Final exams: Mathematics, Computer Science, French, German, History
